

# Composite Doors

Superb looks. Superb performance.

For the look and feel of solid timber, a composite door is the obvious choice.

Matching frames, charming glass patterns and sophisticated hardware disguise the rugged strength and security of the composite and make it a focal point of home.

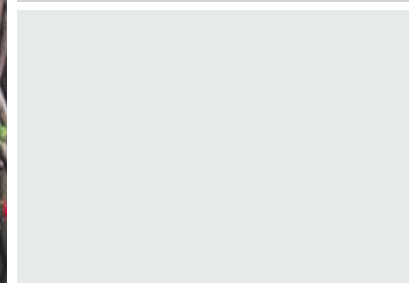

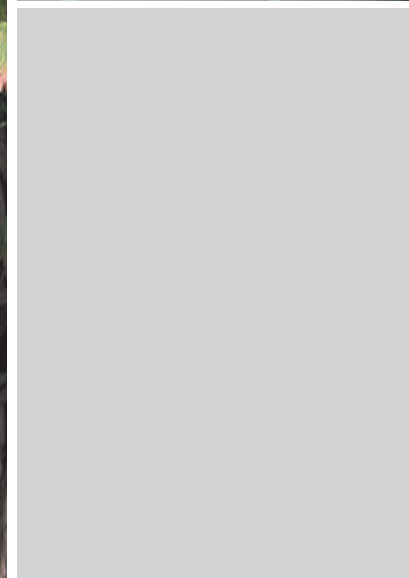

A composite door combines all the aesthetic benefits of painted or varnished timber with the security, performance, low maintenance and long life expectancy of modern materials.

**Colour options:**

# Composite Doors

**01 Style**

A massive variety of choices to suit any taste and complement any style of home.

**02 Reinforcing**

Steel reinforcing gives added strength and durability to products that may be exposed to wild and erratic weather.

**03 Hardware**

Letter boxes, door knockers, spy holes, hinges and handles all available in colour options to suit your style.

**04 Security**

With home security high on everyone's agenda, our composite door has been approved by the Police led initiative Secured By Design. It might look warm and welcoming for visitors, but it provides a formidable barrier against any would-be-intruders.

**05 Glazing**

With an amazing array of glass designs and production techniques there is a stylish option for every home, from conventional coloured glass to the elaborate Art Deco bevel. And if you can't decide, we can always design something for you! See our full brochure for a full range of styles.

**06 Quality**

On the surface, the tough skin is through-coloured to keep its appearance if it should become scratched. This is mounted onto a composite material supported by laminated timber stiffeners and pressure filled with an energy efficient foam.

Images are for illustration purposes only. Supplier reserves the right to alter specifications, options, and styles at their discretion.

With so many doors to choose from, we had to make another brochure! Request this at our showroom or visit our website
